Celebrate, Explore, Experience the Hudson River by Ferry

Up through the 1800's, ferries were the only way to get across the Hudson River. As bridges and tunnels were built, ferry transportation faded. In 1986, Arthur E. Imperatore and his family rejuvenated the NY Harbor with the launch of the first NY Waterway boat. Since then, NY Waterway has carried over 65 million passengers. NY Waterway has the largest ferry and excursion

fleet in the NY Harbor, but it is still a family business with all the personal attention to service and amenities that it had when it was just Arthur's ferry. We are proud to have NY Waterway providing all the ferry service for Hudson Ferry-Go-Round!
